# Elimination Plan Shopping List

The beauty of this plan is that you design your own meals, as long as you eat the food contained on the shopping list and nothing else.

This is a Clean Eating plan, getting rid of all processed foods that clog up the body. Grass fed beef, organic eggs, and meat are much better quality than standard variations. Think of the food the animals are fed on.

If they are fed hormones and bad quality food then their produce will be the same. This is worth bearing in mind when doing your shopping.

This is a gluten and dairy free eating plan.
